

Cashless Biometric
Catering

November 4th is our first Cashless catering day in school. The school has invested in this new system for the following reasons:

- Removes the need for children bringing money into school
- Removes any concern children have about qualifying for FSM
- Speeds up the serving process in the canteen
- Parents can monitor what students are eating at lunchtimes

To ensure that the system implementation is smooth and seamless it is essential that all families sign up to Parent Pay.

Parent Pay is an online system that enables families to charge up their child's account. The system works via the internet or via PayPoint shops.

If you require a PayPoint card please contact Ms L Williams at the school on williamsl@ridgeway.wirral.sch.uk and she will order a card for you.

In an emergency your child can bring cash into school and use the revaluation unit, however there is only one unit, so this can only be used in an emergency.
